WORK EXPERIENCE

Angular Developer

Innodata Inc

July 2021- Mar 2022

Role and Responsibilities:

- Worked on the development of a healthcare application portal utilizing Angular 11.
- Collaborated with a cross-functional team to implement key features and functionalities.

Reusable Component Library (Prime-NG/Angular Material)

- **Achievement:**
 - Created a reusable component library for the web application using Angular Material.
 - Resulted in a significant reduction in development time for new features.

Authentication System Development

- **Achievement:**
 - Developed a robust authentication system using JWT tokens and OAuthX for secure user access.
 - Ensured a high level of security in the healthcare application, protecting sensitive user data.

Performance Optimization

- **Achievement:**
 - Optimized application performance by 12%, contributing to a reduction in page load time.
 - Improved overall user experience for healthcare professionals and end-users.

Front End Developer

Tata Consultancy Services

July 2012- June 2021

Front-end Development:

- Worked as a Front-end Developer on the Internal Portal Project, utilizing the Bootstrap framework for a cohesive user interface.

Theming for Dental E-commerce:

- Contributed to theming for a Dental E-commerce Website, demonstrating proficiency in HTML, JavaScript, and CSS3.

Website Redesign with ServiceNow:

- Led the redesign of a website, employing HTML, Bootstrap Framework, and JavaScript. Integrated ServiceNow for backend functionalities.

Web Development Life Cycle:

- Involved in the entire development life cycle, including developing, documenting, and unit testing responsive web pages based on designer specifications.

Angular 2/5 Development:

- Currently serving as an Angular 2/5 Developer, contributing to the enhancement and new development of an internal project website that encompasses various CSR projects undertaken by the organization.
